## **Designer Challenge 2010 Artist Statement**

Please write a 1-2 page designer/artist statement that includes your design inspiration, your design process and where you see yourself in five to ten years. This will need to be typed on a separate sheet.

Name:

My design sources of inspiration: (where did you visit, what were your sources of research, what was the most successful aspect, what did you like or not like, etc.)

How I used the sources' inspiration to create each of my fashion designs: (what you found and did with it, how you took your mood board ideas and made them into dress designs, how you see these designs as good for prom, etc.)

In the next five to ten years, I see myself doing...: (if you see yourself in a certain city, what sort of company you want to work for, if you want to be a designer or stylist or patternmaker, how you see your college education helping you achieve your dreams... think big here!)
