

# Stephens Scholars Honors Program

## An innovative program for an inquisitive mind

The Stephen Scholars Plan is a selective program that challenges academically talented students. Surround yourself with like-minded thinkers who share your desire to succeed and excel. The Scholars Plan lets you make the most out of your college experience while fostering in you a lifelong love of learning.

## Rigorous courses

As a Stephens Scholar, you will benefit from interesting and challenging 200-level honors courses that fulfill your general education requirements. And you will take those courses with fellow scholars, ensuring that the coursework, curriculum and syllabus are designed specifically for you and your high-achieving peers. You will also learn from full-time faculty members—Fulbright Scholars and professors dedicated to advising and mentoring you throughout your college career.

## A supportive network

By belonging to the Stephens Scholars Plan, you're joining a network of peers who respect your knowledge, leadership skills, curiosity and love of academics. Through the Scholars Plan, we'll challenge you to build on the skills and interests you already have.

## Experiential learning

The Stephens Scholars Plan has an experiential learning component, too. Through field trips and walking tours, you'll have the opportunity to explore careers and meet women who are excelling in their respective industries. Experience art at local galleries; see agricultural production in action at the Columbia farmer's market or explore nature through a field trip to a area park.

## Celebrating your achievements

By belonging to the Stephens Scholars Plan, you'll be eligible for special endowed scholarships covering your sophomore, junior and senior years. You'll receive a transcribed record of your membership and special recognition at Commencement.

The Stephens Scholars Plan is open to students who have at least a 3.5 GPA and an ACT composite of 25 or higher (or SAT 1700 composite or higher).

“The [Plan] challenges you intellectually and emotionally. I won't lie and say it's easy, it's very difficult. But that challenge will strengthen your resolve in your endeavours and force you to fight for what you want out of life.”

—Taylor Wetzel '17  
Stephens Scholar

It goes back to a more rigorous education; getting that extra bit out of college. If you're here, you might as well learn as much as you can. Why not join and have that opportunity?

—Autumn Brown '17
